I want to be a business woman because i think they pay well. and is important to have a job. Being a business woman is a responsibility and i want to learn how to be responsible. and i think that is a good thing to have a good good job. And it's important to help people save money and when people come to get some money i could give them there money that they gave me to put there money in there allowance. That's why i think that is a good choice for me to be.
