Dream Starters

★ What I Want to be
When I Grow Up ★

I want to be a lawyer when I grow up. I want to be a lawyer because I want to help people know their rights. I like the word objection I think it is a funny word! The only way I can be a lawyer is when I am successful and get good grades and listen. I think it is not all about the money it is about how you help people and live your life right. I want to live my life right and be successful when I graduate and go to collage. I have to get my diploma before I go to collage. Just to become a lawyer I have to stay in collage 4 years I am ready for it!
